After a long period of devoting myself to Architecture, I started looking for a new field that will excite me and found the world of coding.

highly motivated, organized, sees the big picture and doesn't take things for granted. excited about learning new things, finding better ways of doing things I already know, and solving problems.

Education

2019 | Full Stack Web Developer - Elevation Academy, Tel Aviv

An intensive 3-month coding Bootcamp which covered the entire MERN stack and beyond. Built a number of end-to-end projects from scratch while adhering to solid OOP principles and communicating with a number of external APIs.

2011-2017 | Architecture (B.Arch) - Tel Aviv University

Creating multiple projects from concept to construction plans and presentation. Working in collaboration with others as well as individually. Creating virtual models using 2D and 3D softwares, as well as designing and producing physical models.

Grades average | **82**

Psychometric exam score | **742**

2010 | Studio 6b - Architecture preparatory program

2002-2006 | Blich High-school | Ramat-Gan

Skills

Client Side: React and MobX, JavaScript (ES5/6), jQuery, HTML, CSS, LESS

Server Side and DataBase: Node.js, Express, MongoDB, Mongoose, SQL

Tools: Git, working in collaboration in Github, Heroku
